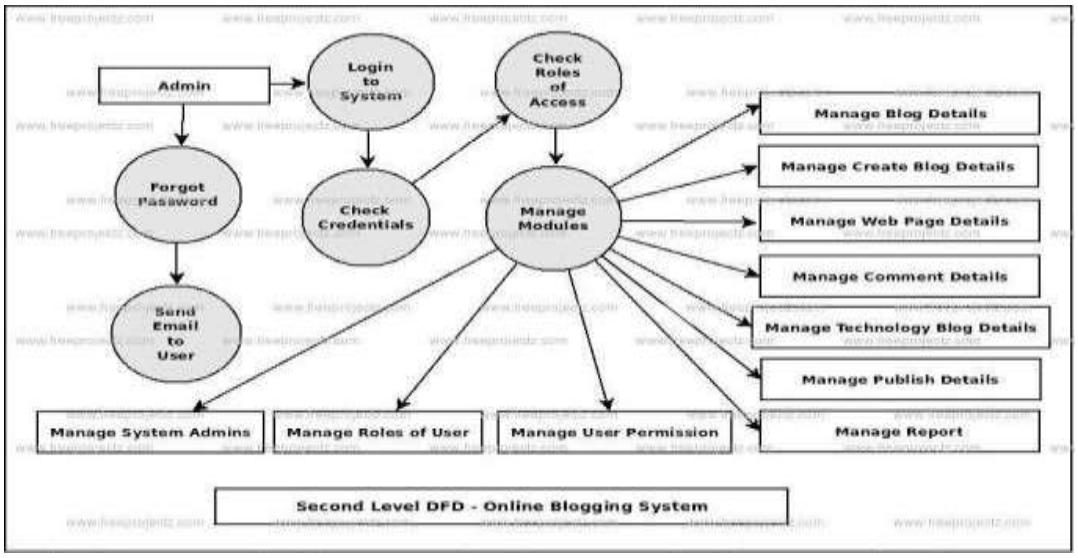
INTRODUCTION

It’s a list of tasks you need to complete or things that you want to do. Most typically, they’re organized in order of priority. Traditionally, they’re written on a piece of paper or post it notes and act as a memory aid.

DECLARATION

To the best of my knowledge and belief, this paper is based on my own work, all sources have been properly acknowledged, and the paper follows the guidelines as mentioned by the organization. I Assure that this paper does not violate any Copyright rules and I abide by the laws in case of any violation.



SOFTWARE USED

Code Editor I used for this project is VS Code, It is used to code complex piece of programs and to develop complex projects. Further technologies I used for this project are HTMLS, CSS, and JS.

Commented [Ma1]:

2.1 HTMLS

It is the code for creating web pages, using tags and other commands that a browser rends and eOiiVCi'tS into the iiOt'iÄiiil web pages that people see.

2.2 CSS

CSS is the language for describing the presentation of Web pages, including colures, layout, and fonts.

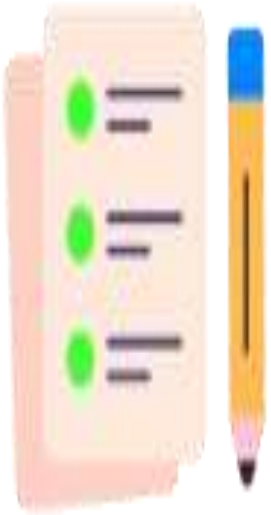
Result / Output

Home Section:

It displays my name, my current work, and status and whereI am from on the topic also has navigation bar which displays other tabs of my website and my contact detail shortcuts on top right.

About Section:

It displays a quick introduction for me and provides my skills and education.



Contact Details Section:

This section has all the links listed below:

I. Facebook
2. Twitter
3. Whats App
4. Instagram
5. Linked In

ADVANTAGES:

- Increases productivity
- Provides motivation
- Improve memory
- Reduces stress
- Allows for more personal time
- Set deadlines for each goal

DISADVANTAGES:

- Too much To Do
- Decreased confidence
- Interruptions, Changes, Life Happening
- Stress
- Procrastination

Applications:

To Do List App is a kind of app that generally used to maintain our day-to-day tasks or list everything that we have to do , with the most important tasks at the top of the list, and the least important tasks at the bottom.

Conclusion;

App todo-list-app performs very efficient comparing to competitor. There is a space for further developments with regards of keeping app small and quick. It would be optimal to use dedicated CSS and continuing using vanilla JavaScript

Future Scope:

We live in a world of to-do lists. Many of us keep one in some from, be it a journal, a task manager, a grocery list, or a voice inside the head.
